

Shashank

Growth Product Manager | Product, Analytics & E-commerce

Rajajinagar, Bengaluru 560010, India · +91 7541073035 · shashankrathor180@gmail.com · linkedin.com/in/shashank180

PROFILE

Growth Product Manager with 6 years' experience owning a customer-facing healthcare e-commerce product, Rehamo.com, end to end — as sole developer of the platform and product owner (Acting Growth & Product Manager since 2023). Designed it enquiry-led around how caregivers buy high-value rehab equipment, and built the growth engine around it: **400+ qualified leads per month** converting at **~25% to sale**, at **4-5x ROAS reconciled against billed revenue**, on **₹5-10 lakh/month** of Google Ads spend. Built an internal CRM to learn requirements before buying, then led the move to Zoho across six teams. Lead 6 direct reports using Agile/Scrum. Certified in Digital Product Management (University of Virginia, Coursera).

SKILLS

Product — PRD Writing · User Stories · Roadmapping · Feature Prioritisation (RICE, MoSCoW) · Backlog Management · A/B Testing · User Research · Wireframing · Competitive Analysis

Analytics & Measurement — GA4 · Google Tag Manager · Google Search Console · Event & Conversion Tracking · Closed-loop Attribution · KPI Definition · Cohort & Funnel Analysis · Weekly Performance Reporting

Growth & Performance Marketing — Paid Media Strategy · Google Ads (Search, Shopping) · Meta Ads (lead & traffic) · SEM/PPC · Campaign Structure & Optimisation · CRO · Conversion Funnel Analysis · Lead Generation · User Acquisition · SEO (Technical & On-page) · Google Merchant Center · GMB & Reputation Management

Technical — React.js · Node.js · Express.js · MongoDB · REST APIs · MySQL (basic) · Git · AWS (basic) · Firebase · Web Performance Optimisation

Leadership & Tools — Team Leadership (6 direct reports) · Stakeholder Alignment · Vendor Management · Agile/Scrum · ClickUp · Asana · Zoho CRM · Figma · Google Workspace

EXPERIENCE

IT & Digital Marketing Lead (Acting Growth & Product Manager) | Rehamo, Bengaluru 01.2023 – Present

Rehamo — Bengaluru healthcare e-commerce company selling rehab and mobility equipment through online enquiry, phone, WhatsApp and in-store sales

- Own **Rehamo.com** end to end as product owner: an enquiry-led platform designed around how caregivers buy high-value rehab equipment — form, WhatsApp and call routes all counted as conversions, search-led product naming, and reviews as a trust layer in place of a clinician's recommendation
- Own the product roadmap using RICE/MoSCoW prioritisation; lead **6 direct reports** across design, content and external collaborators using Agile/Scrum in ClickUp.
- Built an internal CRM (React/Node) for lead and pipeline management, operated it for two years, and used that usage evidence to specify and select Zoho — now leading implementation as primary POC across requirements, vendor coordination, data migration and onboarding.
- Extended the system from sales-only into a six-team case workflow — inside sales, technical assessment, service, store, warehouse and delivery — with explicit stage ownership so handoffs became visible rather than verbal.
- Drove mobile access as a hard requirement for field teams and built process-flow documentation and step-by-step video guides for team members new to digital workflows.
- Set up GA4 event tracking and funnel analysis; identified and resolved 3 critical drop-off points; improved page load speed 40%+ across devices.
- Designed UI/UX for the D2C platform and a new product website; proposed and validated new catalog additions from demand signals, contributing to GMV and catalog growth.
- Extended measurement beyond the first sale to retention: **30% repeat purchase rate**
- Own the digital acquisition function end to end on **₹5-10 lakh/month** of Google Ads spend: sustained **400+ qualified leads/month** at **~25% lead-to-sale conversion**, with **ROAS of 4-5x** reconciled against billed revenue and CRM records rather than platform-reported figures.
- Killed Performance Max and cut Shopping back significantly, concentrating spend on Search where query-level intent is readable and controllable in a considered-purchase category.
- Ran **Meta Ads** lead and traffic campaigns on a small budget as a pilot: grew the page following by a few hundred and generated leads; paused after the pilot and relaunching with enquiry events tracked end to end

Web Developer — Growth & Analytics (Expanded Scope) | Rehamo, Bengaluru 06.2021 – 12.2022

- Built Rehamo's first measurement stack from scratch — GA4, GTM, Search Console, conversion events per enquiry route, and an internal traffic filter that corrected an inflated session baseline.

- Reframed the website from an ecommerce store into a consultative funnel: qualified enquiry as the conversion event, counted across form, WhatsApp and phone rather than form fills alone.
- Ran tests before rollout: added WhatsApp, call and email options on a few categories and measured enquiry conversion before extending site-wide; tested "CP wheelchair" against "stroller for disabled children" in ads and carried the winning term into landing pages and product naming
- Proposed digital acquisition to management in a business running entirely on walk-ins and clinician referrals, with no prior ad spend and no conversion tracking to argue from; secured budget approval and built the channel from zero.
- Built and scaled Google Ads campaigns from scratch at **4-5x ROAS**, structured by product category and user intent stage.
- Executed SEO across 500+ target keywords, achieving **100+ Page 1 rankings**; grew Google Business Profile reviews from near-zero to **2,000+** — the trust substitute for clinician endorsement in a referral-driven category.

Web Developer — Full Stack (MERN) | Rehamo, Bengaluru

11.2020 – 05.2021

- Built Rehamo's full B2C healthcare e-commerce platform from scratch as sole developer — product catalog, cart, checkout and order management using React.js, Node.js, Express.js and MongoDB.
- Reduced page load time by **50%+** post-launch through caching, code optimisation and asset compression, laying the performance foundation for later SEO and conversion work.

SELECTED PROJECTS

Case Management System — internal CRM to Zoho

2024 – Present

- Built a four-feature CRM to establish requirements before buying. Two years of usage showed the binding constraint was cross-team handoffs, not sales tracking — which reshaped what was specified and bought.

Digital Acquisition Channel Build — 0 to 400+ leads/month

2021 – Present

- Built the channel from no measurement and no spend. Custom React enquiry form, WhatsApp CTA, instant sales notification and a custom admin dashboard so leads were visible on arrival. **~25% lead-to-sale, 4-5x billing-matched ROAS.**

AI Marketing Command Center

2025 – Present

- Connects GA4, Google Ads, Search Console, GTM and Merchant Center behind a natural-language interface built on Claude (Anthropic). Reads and recommends; deliberately does not write to live accounts.

EDUCATION

B.E. Electronics and Communication Engineering | Birla Institute of Technology, Mesra

2016 – 2020

CGPA 7.63

CERTIFICATIONS

Digital Product Management Specialization — University of Virginia Darden School of Business, 2026

Google Analytics (GA4) Certification — Google Skillshop, 2026

Conversion Optimisation — Google Skillshop, 2026
